

## 24-260

Aux in adapter for BMW cars with OE navigation

InCarTec

24-260 is an aux in adapter harness for BMW 3 series E46, 5 series E39, X5 E53 and X3 E83 cars with original navigation screen units in the dashboard.

### Installation

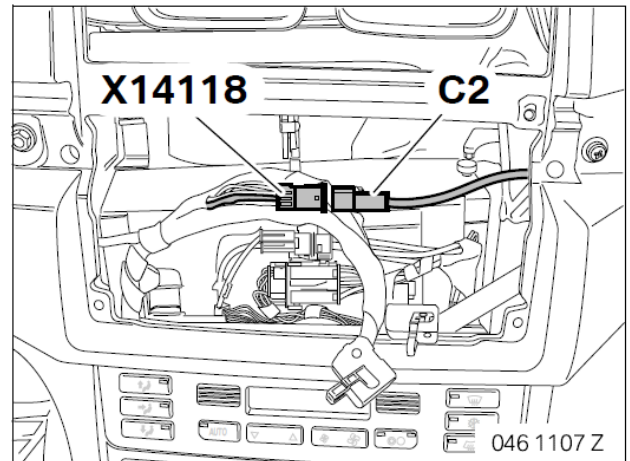

Remove the navigation screen in the dashboard. Locate spare connector X14118 as shown in the diagram.

Connect our 24-260 (C2 in diagram) aux in adapter lead to the connector in the dashboard.

Run the aux lead out of the dashboard to the required position, eg. Glove box, centre console...

Refit the screen into the dashboard.

Activate the aux by pressing MODE button until AUX appears on the display.
